

1st PERIOD «CAPACITY BUILDING AND TRAINING EXCHANGE PROGRAMME»

CENTRO DI AVIAZIONE

Guardia di Finanza

HOW DID IT START?

On late 2023, Guardia di Finanza Head Quarter (Rome) called its main divisions involved with training on the opportunity to host specialised courses.

At Gruppo Addestramento Aeronavale, we tried to answer the following questions:

?

- Which professional type might be the best for analogy with Guardia di Finanza?
- Which tool might be the best for that lofty task?

So we realised:

**PILOTS and/or
SYSTEM OPERATORS**

and

«CENTRO SIM»

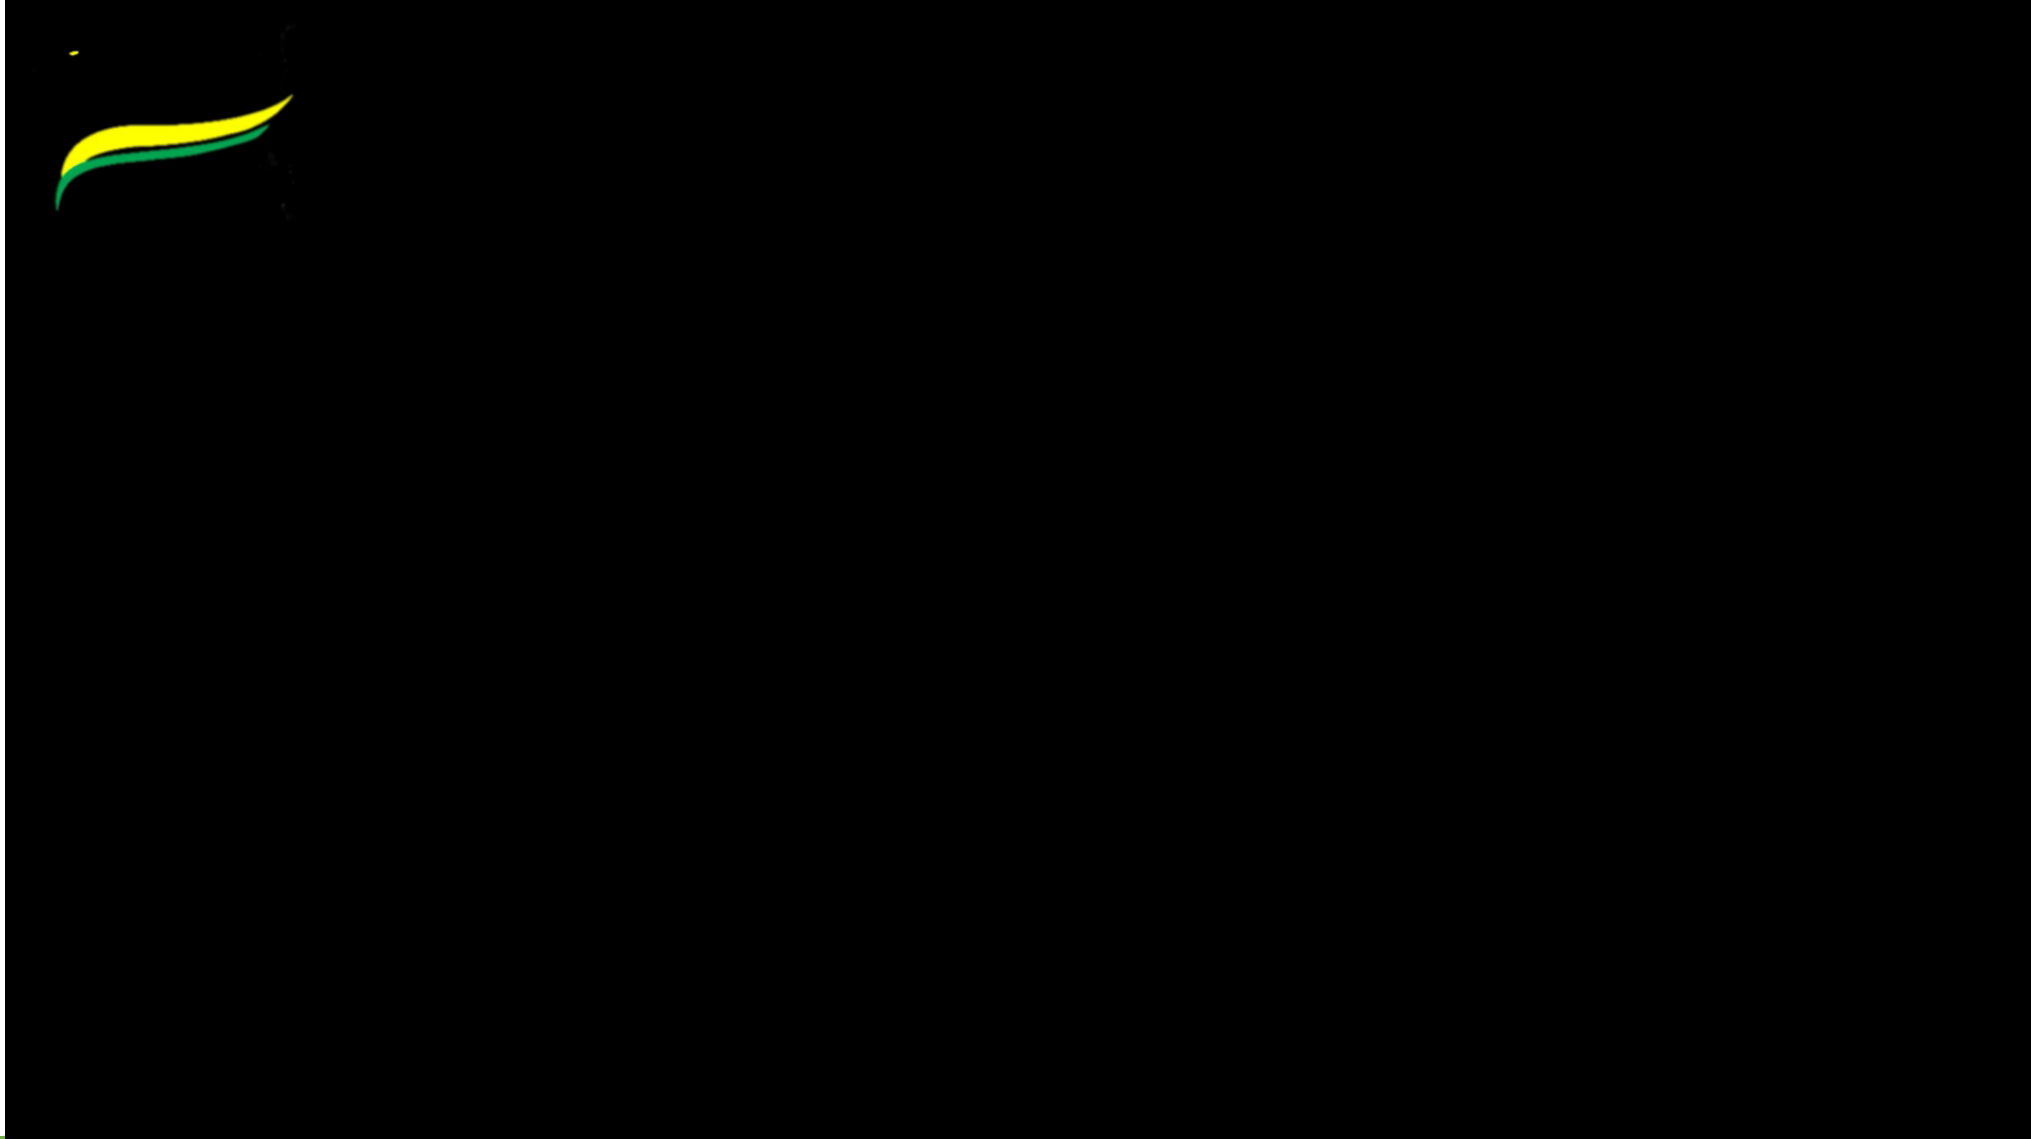

Guardia di Finanza

2024/IT/1

CENTRO SIMULAZIONE OPERAZIONI AERONAVALI

2024/IT/1

CENTRO SIMULAZIONE OPERAZIONI AERONAVALI

Unfortunately, just one pilot from France was able to join us on 10th September 2024. At the beginning, we supposed to host three officers but for sending authorities' requirements two of them never came.

This was not a drawback but more consistent numbers would have provided deeper sharing and more solid feedbacks on both sides for sure.

CONCLUSIONS

We have been very glad to have had that kind of opportunity and we respond again at the call for 2nd exchange programme;
We do know where to pay greater attention now and focus the training tasks;
Having at least one fixed wing pilot (up to two), one rotary wing pilot (up to four), one system operator (up to two) and a naval unit commander (up to three) could allow to create more realistic scenarios;
the activities should be carried out in at least two days (to have a sort of "point 0" and a final moment to evaluate progress.

ANY QUESTIONS?
Thanks for your kind attention
